

**Table 4**  
**14 Inconsistencies Between Facts of Bailey’s Murder and his Behavior and Blaise**  
 (Not considering the differences between Blaise’s statement and the facts of Bailey’s murder.  
 See Tables 1 and 2 for those differences.)

| <b>Inconsistency</b> | <b>Bailey</b>   | <b>Blaise</b>   |
|----------------------|---|---|
| Drug motive          | Regular crack cocaine user, and cocaine was in his system at his time of death. He didn’t use methamphetamines.   | Used methamphetamines in Las Vegas. There was no evidence she had ever used crack cocaine, and no traces were found in her car.   |
| Geographical         | Murdered in a Nevada State Bank’s trash enclosure on Las Vegas’ west side.  | No witness, surveillance video, bank receipt, or other evidence that Blaise had ever at any time been to the Nevada State Bank.   |
| Bloody shoeprints    | Bloody shoeprints leading away from Bailey’s body were made by a man’s size 9 athletic shoe.  | Wears size 7-1/2 woman’s shoe, equal to man’s size 6 to 6-1/2.  |
| DNA evidence         | Bailey’s DNA is on crime scene evidence.  | No crime scene evidence has Blaise’s DNA, and none of Blaise’s personal items or her car has any of Bailey’s DNA.   |
| Blood evidence       | Bailey lost two quarts of blood at the crime scene. Bloody shoeprints were both leading away from his body, and on the cardboard on top of his body.  | None of Bailey’s blood was found on any personal item of Blaise or in her car.  |
| Baseball Bat         | Simms testified that Bailey’s injuries were inconsistent with being caused by a baseball bat.   | Blaise kept a baseball bat in her car for self-defense that tested negative for the presence of any blood.  |
| Tire treads          | A set of undisturbed tire tracks was found next to the trash enclosure where Bailey’s body was found.   | The tires on Blaise’s car don’t match the crime scene tire tracks.  |
| Injuries             | Beaten severely. Stabbed multiple times prior to and after death. Penis severed and anus cut after death.   | Blaise had no injuries to her hands, or elsewhere on her body attributable to violently assaulting a person – such as Bailey was assaulted.   |
| Eyewitnesses         | No witness to Bailey’s murder has come forward.   | Eleven alibi witnesses saw or talked with Blaise in Panaca on July 8 from about 12:30 a.m. until after Bailey’s body was first seen by the police at 10:50 p.m.   |
| Homosexual overtones | Sexual mutilation of Bailey after his death was described by M. E. Simms and defense expert Turvey as associated with male homosexuality. Simms testified that none of the dozen or cases of male mutilation after death that he had personal experience with involved a woman, and he had never heard or read of any such case in the professional literature. Turvey wrote in his pre-trial report that researching male mutilation after death resulted in him finding only one that allegedly involved a woman – Blaise’s case. | Blaise is a woman.  |
| Time of death        | Although Simms has given four different times of death for Bailey that range from about 10:30 p.m. to 3:50 a.m. – the common denominator of all of them is that Bailey died on July 8.  | Eleven alibi witnesses saw or talked with Blaise in Panaca on July 8 from about 12:30 a.m. until after Bailey’s body was first seen by the police at 10:50 p.m. Two other alibi witnesses said that they didn’t see Blaise’s car moved on July 8. |

**Table 4 (Continued)**

| <b>Inconsistency</b>    | <b>Bailey</b>  | <b>Blaise</b>   |
|-------------------------|--|---|
| Location                | Murdered in Las Vegas on July 8.   | No evidence of any kind – no eyewitness, surveillance video, gas receipt, etc. – that Blaise was in Las Vegas on July 8 (or on July 6 or 7).                                  |
| Personally acquainted   | A person or persons acquainted with Bailey murdered him based on the expert opinion of Simms and Turvey that the crime scene and Bailey’s injuries strongly suggest homosexual overtones.  | No evidence that Blaise knew Bailey – or had ever had any contact of any kind with him.   |
| Circle of acquaintances | People in the area of the Nevada State Bank were acquainted with Bailey, and these people included Richard Shott (who discovered Bailey’s body), Diann Parker (who was raped and beaten by Bailey), and the Mexicans (who warned Bailey to stay away from Parker). | No evidence that Blaise knew any of Bailey’s circle of acquaintances, or even that any of Blaise’s Las Vegas acquaintances knew Bailey or any of his circle of acquaintances. |
